\$96,000	47.85%	65.38%	82.63%

This ready reckoner is a guide only.

"Income" is a family's annual adjusted taxable income as assessed by the Family Assistance Office.

Annual adjusted taxable income includes taxable income, fringe benefits over \$2,000 (including salary sacrificing arrangements), tax-free pensions or benefits, net rental property losses, non-taxable foreign income, less child support (maintenance) payments paid.

To approximate how much Child Care Benefit a family could receive, please download the Child Care Benefit Calculator from <http://www.investmentpropertycalculator.com.au/free-child-care-benefit-calculator.html>.

* Multiple Child Percentage: this is applied when more than one child is in the same kind of approved care in the same week. The children do not have to be in the same child care service for the multiple child percentage to apply. The following approved services are considered to be the same kind of care: long day care centre, family day care scheme, outside school hours service or in home care service, or any combination of those. Occasional care is another kind of care.
